

Lincoln Academy Charter School

Office of the Principal
August 2009 Report to the Board

The Summer in Review:

- Many building projects were completed
 - Installation of carpet in building C and a few places in building B
 - Repainting of necessary areas in B
 - Staff lounge remodeled
 - New furniture in the community room- chairs arrive tomorrow
 - Removal of some of the carpet on the walls, more still needs to be done eventually
- We had some extra challenges when we had all of the large windows broken in building B
 - All have been replaced, except Janelle's, which should be replaced tomorrow (hers will be installed with a header and a window that opens).
- There are some projects that will be finished before the start of school with kids
 - The remodel of the girls and preschool bathrooms
 - The addition of a teacher bathroom in building C
 - The windows that open for building A will be installed tomorrow
- We did receive our Title II grant funding for the 7 Habits materials, training begins with teachers this week.
- I attended the CASE (Colorado Association of School Executives) conference at the end of July. It was very helpful to focus my mind on the year ahead.
- Middle school athletics may have a delayed start. We may have to wait on girls volleyball in the fall if we install the skylight.
- We are ready to go with Revolution Foods as our new hot lunch vendor. Lee Ann Kain spent hours getting all of the necessary forms, waivers, letters, details, etc. gathered to get it ready.

Looking Ahead:

- Back-to-School Night is next week
- Kids start on the 20th (which I'm sure you all know, whether you are rejoicing or crying)
